

The Contract Office:

A New Workforce Paradigm, from Innovative

i n n o v a t i v e

Building Human Equity

Introducing a solution that allows Corporate Recruiters and HR Professionals to supply their organization with contract labor for a fraction of the market cost

A simple change in thinking

The average 3rd Party Contract Staffing Agency will earn \$40,000 per year in pure profit each time you turn a temporary opening over to fill.

The exact same candidate they will send you may already be in your database or willing to respond to your next job posting.

So why not fill it yourself?

The Contract Office

Innovative has built a powerful employer-of-record solution capable of funding and managing tens of millions in contract payroll, allowing organizations to find talented contract labor without paying inflated search fees. Organizations such as MasterCard International, MaryKay Corporation, FedExKinkos, and Sungard Financial are just some of the companies who have already enjoyed millions per year in savings.

Create Your Contractor Database

Innovative knows that some organizations either do not possess the tools or time to find contract talent, so our monthly Sourcing Office supplement can provide a consistent flow of talent while still avoiding the inflated hourly margins charged by agencies.

Simple Math

Just one Software Engineer Contractor acquired using The Contract Office can save an organization as much as \$30,000 per year.

Project Manager	\$90.00 \$75.00 an hour
Network Administrator	\$65.00 \$50.00 an hour
Tax Accountant	\$55.00 \$42.00 an hour
Call Center Representative	\$20.00 \$15.00 an hour
