

The Sourcing Office

You could spend hours sifting through resumes, *but why?*

You could spend hours pre-qualifying candidates to match your jobs, *but why?*

You could spend hours uploading & managing data in your applicant tracking system, *but why?*

A Break for Corporate Hiring Professionals

Innovative has developed a solution geared specifically toward making Corporate Recruiting and Human Resources Professionals more competitive at serving their internal customer base. Our powerful suite of services pick up where job boards leave off, saving thousands of hours and tens of thousands of dollars per year to deliver more hires.

The Sourcing Office

Job boards provide access to resumes. Job Ads drive applicants to your inbox. The Sourcing Office from Innovative not only delivers you more candidates than boards and ads, but provides actual human evaluation and matching to your openings based on decades of recruitment experience. Stop paying for “resume access” and “targeted postings” and get candidates who are ready to interview.

Beyond “The Boards”

While premium job boards provide searchable resumes and exposure for job advertisements, they still only give you access to those who are “active” in the job market. Innovative goes deeper than surface-level resume posters to deliver information on the most talented resources that are highly sought-after yet may listen to your opportunity.
